

Dear Parents and Guardians,

My name is Katherine Tang and I am a 3rd-year student of the Bachelor of Social Work at Edith Cowan University. For these 13 weeks (from term 3), I'll be undertaking social work field placement here at Hawker Park Primary School with your wonderful children.

I have experience working with children in Hong Kong at a community centre (YMCA) as an assistant to a social worker. There is a vast number of target areas in which social workers contribute to support systems in the community, one of the areas that I want to practice at HPPS is building an ability to work appropriately and promote inclusively with culturally diverse and minority groups.

My passion lies in working in multicultural and mental health services. During the field placement, I am hoping to establish insights on how I could support students to develop their positive thinking and overall well-being from the perspective of the social worker's role.

I will be under supervised by ECU and HPPS and also follow the Code of Ethics from Australia Association of Social Work. I'm so grateful for this opportunity to be on placement at HPPS with lovely people and am looking forward to being part of the school community.

Kind Regards,  
Katherine Tang
